Pre-Order Now

Neptune Series™ Hollow Fiber Water Filter

Nothing ruins the great outdoors like relying on a questionable drinking source.

The Neptune Series™ filter delivers clean, reliable water without

the hesitant sips or second-guessing. And with over twice the lifespan of standard filtration products, go ahead – drink up.

Safely filter 1,320+ gallons of contaminated water for any emergency, survival situation, or outdoor adventure - That's a 4.2 year water supply for the average person, or 9,992 standard size bottles of water.
