**Have you ever wondered why your business isn't making more money?**

Why working longer or harder just doesn't seem to make a dent in your bottom line?

Why chasing after new customers takes so much time and energy?

And does it ever seem like your successful competitors know some “secret” to making sales that you don't?

If this sounds familiar, we have good news and bad news for you.

The bad news is this: if it seems like there's something successful people know that you don't... it's true! THEY DO.

But the good news is that there's nothing holding you back from using the same methods that have made the world's wealthiest business owners, trainers, coaches, healers, and other professionals so successful.

All you need is the right system. Once you know the system that wealthy people use to create their success, you can practically print money. And in a moment, we'll tell you the system that thousands of people from around the world have used to learn these methods. It's the same step-by-step system T. Harv Eker has used to make over \$500 million from his business ventures and soon you'll be able to use it too.

But first, there's something you need to understand...

## Doesn't Matter

## Won't Get Rich

# You Can **Learn To Market Yourself Without "Selling"** People Products They Don't Want And Don't Need

Today you're going to learn about a step-by-step system you can use to magnetically attract your dream customers or clients.

Instead of spending your days chasing down the next paycheck, you can spend more of your time doing what you love, and less time wondering when your next sale will come in.

But it won't happen if you spend 100 hours a week creating products, ordering inventory, or perfecting your services in the hopes of making it big instead of marketing.

Unfortunately most people spend less than 20% of their efforts on marketing and that's one of the most common reasons why most businesses fail.

Marketing is responsible for the income you bring into your company and it keeps your company afloat. Without marketing you have no customers, without customers you have no money, and without money you have no business.

So what would happen if you turned the tables and really invested in developing your marketing skills... and went from spending whatever you currently spend on marketing right now to spending 80% of your time on it? How would your life change?

Some of you reading this might think that sounds agonizing. If you're only spending 20% or less of your time marketing, there's probably a reason. Because if you're like so many business owners, professionals, coaches, trainers, and healers - you hate the idea of "selling" to people. It makes sense. We don't like to bother other people. We aren't sure if we're

wasting their time. And most of all, we don't want to hear a rejection.

And that's what makes Harv's system so powerful. It teaches you how to market yourself and your business – without ever having to “sell” yourself again!

How? It's actually very simple. When you target your marketing to the people who really want and need your product or service, making money becomes easy. You no longer have to persuade, nag, or beg your prospects to buy.

We'll explain how it all works in a moment. But first, a little about your teacher (T. Harv Eker) and some of the mistakes he's made on his own journey to wealth.

## But **Before You Decide**... A Word Of Warning!

We know that \$297 can be a lot of money. Especially if you're just starting out, or your business is nowhere near the level you want it to be.

But when it comes to success, there's a simple way... and there's a hard way.

You can spend years experimenting with this stuff, attempting to learn effective marketing through trial and error. Knowing all the while that you might be missing out on potential profits while you try to find your footing. And in the end? You may become rich. Or if you're like most people, you'll struggle forever.

Or there's the simple way. You can find someone who's already had multiple successful businesses under their belt. Someone who's already made millions and millions using time-tested techniques and systems. And you can learn how they got to where they are today.

The saying goes "time is money". And it's true that time is our most precious commodity. Why risk the hassle and expense of taking a shot in the dark that may or may not work? Following in the footsteps of someone who's already in the position you want to be in eliminates the risk, the frustration, and most of all... all the wasted time!

So if you're serious about finding success – without spending years trying to develop your own way – then T. Harv Eker's "*The Wealthy Marketer*" is for you.
