Compact 20" x 26"
"Cell" Crest fits your
space and your jobs

Crest Clamshell fits your "Sweet Spot"

Whatever your niche, the Crest Clamshell platen press is your short run solution. The no more make-ready Crest increases production, whether you're kiss cutting, embossing, foil stamping, thermal die cutting or more. And the Crest precisely die cuts virtually any material - our Widemouth™ even die cuts "impossible" substrates like Falconboard® and Ultra® Board.

Grow your business with the clamshell press that fits your sweet spot!
Arrange a demonstration or visit our website to see the Crest in action.

Crest Clamshell Models	Max. Sheet Size (Platen Size) Inch	Max. Sheet Size (Platen Size) MM	Estimated Max. Cutting Size Inch	Estimated Max. Cutting Size MM	Press Load (Tonnage)	Die Load (Tonnage)
