[FOR INVESTORS](#)   [FOR PARTNERS](#)

If you're like a lot of people who want to recycle more, you may have a lot of things you'd love to recycle or donate, but you just don't have time. There may not even be a recycling center near your house! Got any old furniture sitting around, or home appliances you're not using anymore just gathering dust? Do you have documents stacking up that you know you need to shred, but just haven't gotten around to it? Maybe you even have some things you would like to donate, but you haven't been able to get in contact with any of the charity groups in your area?

Don't worry, because you have **TaBee** on your side!

Don't worry, because you have **TaBee** on your side!

## Social Environmental Impact

Our goal is to create a new social network that will bring together all people who want to make a greater contribution to environmental protection. Application users will be able to share experiences, suggestions and find other people who understand the importance of rational use and recycling. Expanding our network, we will promote the idea of RRR, thereby making a significant impact on public consciousness around the world and breaking down the irreversible process of climate change. We all know that many of the things that people throw away can be reused or recycled. The mobile application will also function as a marketplace, where users can order services for Junk Removal, Shredding and Donation.
