EMERGENCY ESCAPE TOOL

It is common for a car door or seatbelt to jam after a crash, and it is crucial to have the tools you need easily accessible. The built-in seatbelt cutter and window glass breaker are safely concealed and equipped to assist in quickly escaping a vehicle. The S.O.S. Audible Alarm can be used as a personal alarm, criminal deterrent, rescue signal and more.

*React will only break tempered glass – it is not designed to break a windshield, laminated glass, or plated glass.

EMERGENCY FLASHLIGHT + S.O.S. SIGNAL

The LED Flashlight is perfect for daily use, travel, outdoor activities, and in emergency situations. Choose from 3 light modes: high, low, as well as a red flashing S.O.S. signal.

Peace of mind, check! I just got my REACT and it's incredible! I absolutely love that it has everything I would need in an emergency all in one device. Peace of mind, check! The car charger that turns into a power bank is my favorite feature. While I'm charging my phone in the car, my car is charging the power bank! Than all I have to do is grab it and go and I have power for all my phone all day. ALL. DAY.

I charge my phone in the car everyday, and this item makes me feel better because it adds another safety feature! You never know when you could be in an accident or another emergency, and it's nice to have it with you just in case! Definitely buying it for my family!

Perfect on-the-go product! There are times I don't have a long enough car ride to charge my phone all the way, so the fact that this car charger is also a portable power bank is a huge plus. That way if I'm unable to fully charge my device on my car ride, I can unplug it and take it along with me to continue the charge. I'm going to purchase a couple more for my family!
