## ABOUT THIS

### GOOGAN SQUAD CATCHSMART™ TWITCH KIT

This kit is powered by the CatchSmart System. It includes five killer Googan-crafted baits that work best when paired with the Googan Squad Twitch Rod. The erratic movement of these baits requires a shorter, moderate action / medium power rod to get the most out of each yank. Plus, this kit includes

info on gear recommendations and where to throw. Pick this puppy up and jerk, slash, rip, and twitch those thicc toads into the boat.

**MSRP: \$43.95**

---

### Gear Recommendations

Rod: [Googan Squad Twitch Casting Rod](#)

Line: 10-15lb fluorocarbon or monofilament

---

### Products Included:

#### **Googan Squad Blooper**

*The Googan Squad Blooper is a topwater popper that will crash and splash its way across the water's surface. Point your rod tip down and apply quick snaps to your rod tip to get your Blooper to sing loudly and call in fish from a distance.*

#### **Googan Squad Hound**

*The Googan Squad Hound is a tight walking topwater bait with a cupped mouth for an added splash as you bring this puppy in. Throw the Googan Squad Hound when bass are actively feeding on baitfish, especially during cloudy days or low light situations.*

#### **Googan Squad Scout**

*The Googan Squad Scout is a hard-bodied, suspending jerkbait that looks and swims like a lively baitfish. This jerkbait is the deal whenever bass are feeding on minnows or shad.*

#### **Googan Squad Mini Banger**

*The Googan Squad Mini Banger is a downsized square billed crankbait designed to be fished around cover such as rock or wood. This downsized crankbait is perfect when the baitfish are very small, or the fish are highly pressured.*

#### **Googan Squad Jr. Scout**

*The Googan Squad Jr. Scout is a 3.5-inch hard-bodied jerkbait that looks and swims like a small baitfish. The Jr. Scout mimics the action of a rolling or dying baitfish which looks like a juicy snack to any passing bass.*
