Archived postings are now collected as a blog synergy-emusic.blogspot.com.

Yes, it's that SYNERGY. Electronic Music, Moog Synthesizers, Mellotrons, Computer Music.

This is the official site for information about **Larry Fast** and the **SYNERGY** projects.

Since 1975, **SYNERGY** has been my outlet for exploring electronic music, its technology and creative uses. Beyond my **SYNERGY** projects I have spent a lot of my time recording and touring with other artists. My non-**SYNERGY** work started with **NEKTAR** in the mid-1970s, ran about a decade with **PETER GABRIEL**, and has continued with many other talented performers and groups right up to the present day. Aside from my **SYNERGY** work, in the last decade I've recorded and toured with the Grammy-nominated **TONY LEVIN BAND** and from time to time with the revitalized **NEKTAR**.

THE ALBUMS:

THIRD CONTACT

Third Contact was formed in 1995 to manufacture and reissue Synergy® albums to the public. The then-new World Wide Web provided a perfect outlet to distribute what the mainstream record industry considered a niche act. The web also brought access to Synergy recordings to parts of the globe that never had proper distribution the first time around.

The name Third Contact refers to the stage of a solar eclipse where the light of the sun is just beginning to emerge from behind the moon. The original logo design was executed by fellow synthesist/composer [Wendy Carlos](#) from original photographs that Wendy had shot during her alternate career as an eclipse chaser. Wendy composited and tidied up the image in Photoshop. (I sat in the back seat giving encouragement while Wendy did the tough graphic work). A minor update to the logo's typography was done in the early 2000s.

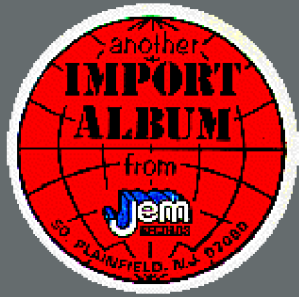

Third Contact is a boutique label. Physical media (CDs) of SYNERGY recordings on **Third Contact** are distributed through [Alliance/AMPED](#). Digital distribution for downloads and streaming is managed by [A-Train Entertainment](#). CDs and digital downloads can be bought through most record stores and at all major online vendors.

business mail address:
THIRD CONTACT
PO Box 425
Berkeley Heights, NJ 07922 USA
email: thirdcontact@synergy-emusic.com

This is also the contact point for inquiries about licensing for third party synchronization uses in other media.

A LITTLE HISTORY

From 1971 through 1988 Jem Records, Inc. was one of the world's largest importer/exporters and distributors of records. Building on a business of importing and distributing British albums into the United States Jem grew to have office and warehouse locations from London to Los Angeles with the home office in South Plainfield, New Jersey. Jem evolved into a publicly traded company conducting millions of dollars in business each year.

In 1973, Jem in association with Sire Records launched Passport Records in order to manufacture and release records from within the United States. The Passport label eventually grew to become the Passport Records Group which included the original flagship Passport label, Passport Jazz, The Audion Recording Company, and several other diverse labels. Larry Fast/SYNERGY was the first US act signed to the new label in 1974.

For a variety of reasons too complex to go into here, by the mid-1980s the Jem Records distribution division found itself in difficulty. Though the Passport Records Group was consistently profitable, the parent company was unable to stay afloat and the entire corporation was shut down.

After Jem Records went out of business at the end of 1988 taking Passport Records and The Audion Recording Company with it, there was no longer any legitimate release channel for the Synergy recordings.

The actual ownership of the intellectual property rights to manufacture and sell new copies of the Synergy albums was in dispute until 1994 when the rights clearly reverted to my production company Synergy® Electronic Music, Inc. During the years between 1989 and 1994 I was contacted quite a few times by labels around the world that wanted to sign Synergy to their company. Third Contact now provides that outlet.

The first Synergy re-release, "Electronic Realizations for Rock Orchestra" went into distribution on the web in mid-1995, the twentieth anniversary of the original release. The second re-release "Sequencer" was reissued late in 1996, followed by "Cords" in the summer or 1997. During 1998 manufacturing and distribution was licensed to

Universal/PolyGram's Chronicles label. All nine of the original Synergy recordings were reissued through Chronicles during 1998. A tenth album, "Reconstructed Artifacts" was issued separately through Third Contact in 2002.

After the Universal/Polygram deal ran its 5 year course in 2002, Third Contact affiliated with the Voiceprint group of labels based in the UK. During this period the first online sales were initiated with the iTunes Store and other outlets.

Following a decade with Voiceprint, Third Contact's distribution transferred to eOne in 2013 followed by BFD/SonyRED from 2016-2018.

About This Item

We aim to show you accurate product information. Manufacturers, suppliers and others provide what you see here, and we have not verified it.

[See our disclaimer](#)

The Jupiter Menace is another of Larry Fast's soundtrack Pieces and was originally released in 1982. The album whilst remaining a soundtrack manages to fit in perfectly with the rest of the Synergy back catalogue. It is also one of Synergy's most experimental works calling on various effects and keyboard textures to illustrate the images perfectly and as such was to become one of the most popular Synergy albums with Larry's fan base. Overview

As Synergy, Larry Fast composed, recorded, and released *Audion* on Passport Records as a cassette and vinyl LP in 1981. It had a limited release as a CD in 1986. For digital remastering in 1998, Fast used the original tapes that preceded the original release. The quality of this reissue (1998) is superb. The quality of the music is also superb. This legendary e-musician has always been on the cutting edge of technology and artistry. His soundscape is full of dense, deep, dark, and deft sequences. To assure that there are no mistaken

identities, Fast adds more sequences. To give the disc its artistic integrity, he adds some synth riffs with rock & roll textures and timbres. There are no guitars. For e-music fans, this disc is essential because of its techniques and historical importance. It will appeal to fans of *Dweller at the Threshold*, *Radio Massacre International*, *Kubusschnitt*, *Jean Michel Jarre*, and *Tangerine Dream*. Prog rock fans will also find it important. [This version of the album includes bonus material.]

Overview

Larry Fast, aka [Synergy](#), is a true pioneer of electronic music. [Games](#) is his fourth album, originally released in 1979. Back then, Fast's techniques were cutting-edge. In the new millennium, some of those methods would be similar to reconstruction or recycling. This album has nine tracks with four basic themes. Fast wrote the "Soundcheck: Delta Three" suite during Peter Gabriel's 1978 tour. (Fast is a member of Gabriel's touring band.) He took "Delta Four" from the remnants of 1974's *Electronic Realizations for Rock Orchestra*. The

whole disc has its roots firmly in rock & roll and in the Berlin school of electronic music. There are no hidden messages -- this is pure entertainment. This disc will appeal to fans of [Tangerine Dream](#), [Klaus Schulze](#), [Jean Michel Jarre](#), and [Ashra](#). Because of its historical importance and quality, it is essential for electronic music fans. Progressive rock fans will also find it interesting. [This version of the album includes bonus material.]
