

Natus UltraPro S100

Built and sold in 2020

Win 10 laptop

Continuing Excellence in Electrodiagnostic Systems

Reliability, Performance, Portability – Exceptional Value

Efficiency

- Three channel amplifier that allows for electrodes to remain in place, accommodating the most common modalities
- Triple programmable foot-switch supports hands-free operation, and a (motor, sensory, needle EMG)
- Lightweight system that travels easily in a roller case or can be cart mounted

High Quality

- All-in-one electrodiagnostic system with dedicated controls
- Integrated stimulators
- Exceptional audio
- Low noise levels for exceptional signal quality

Exceptional Value

- Affordable equipment that meets your diagnostic needs and your practice needs
- The UltraPro S100 system includes instructional video, help menu and training classes, virtually eliminating training expenses.

Trouble-Free Installation

- Three cables with unique connectors so setup is easy
- No installation support is required.
- Minimal set up time, allows you to start performing studies immediately
- On-screen help provides immediate assistance reducing the need for technical support

Ease of Use

- Simple user interface allows you to navigate through procedures quickly to reduce testing time
- The one-button EMR interface allows you to connect results more efficiently to electronic medical records
- Automatic reporting, online summaries and built-in reference value database saves you time and generates reports faster
