How It Works

The Pipeline™ platform connects improved gender equity with increased financial outcomes utilizing platform intelligence-based smart triggers.

[REQUEST A DEMO](#)

Pipeline™ provides a robust, data-driven analytical platform designed for organizations who understand good mission underscores good business line. Through direct integration with your cloud-based human capital management system, Pipeline™ is able to analyze data based on a series of triggered events and make recommendations that support improved financial performance for the organization, as well as growth for the individual.

Pairing improved gender equity with financial metrics

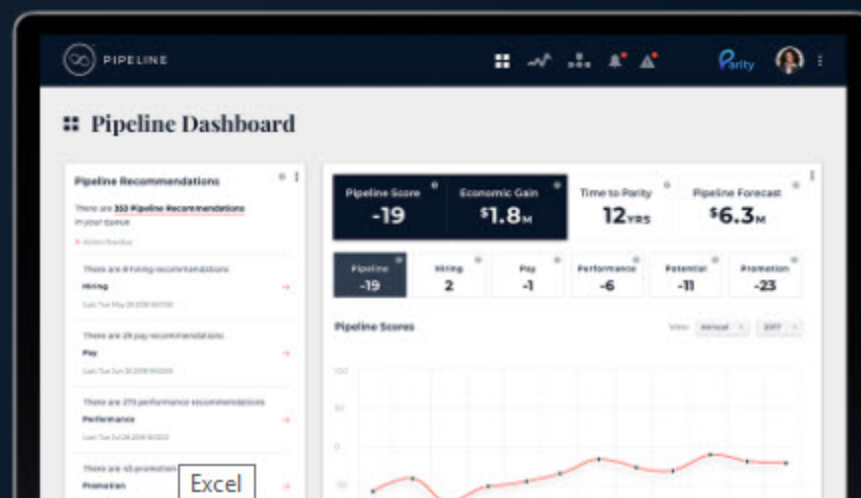

Providing a clear view of the timeline for investment and projected returns

Personalizing customer success benchmarks with current state v. projected outcomes

Delivering real-time support
