BILOTTA

KITCHEN & HOME

Bilotta has been a leader in custom cabinetry for more than thirty years. The family-owned company is renowned for exquisite product, unrivaled service and superior craftsmanship. Thousands of Bilotta kitchens, bathrooms, and other living spaces grace individual homes and multi-unit developments around the world.

Bilotta's three New York area showrooms display traditional, transitional, and contemporary designs from numerous manufacturers and from Bilotta's own hand-made cabinetry line, the Bilotta Collection. Bilotta's cabinetry line is made in its partner factory located in rural Pennsylvania, which has nurtured generations of cabinet makers and equipped them with cutting edge technology and machinery. Talent and pride of craftsmanship are the foundation of Bilotta's fine cabinetry. All Bilotta products are backed by warranties which confirm their quality and reputation.

Full design and engineering services are available from Bilotta's award winning design team. Their talent, passion, and innovation are reflected in the spaces they create.
