ABOUT US

Founded in 2005, [scamFRAUDAlert sites](#) are not some fly by night consumer advocacy group. We are NOT techies, nor are we owned, operated or are part of an Online Media Marketing group. See [Our Work @scam.com](#) – Search For Posts By “Scrub”

We are an internet online consumer protection watchdog group. We are passionate about making the internet a safer place. We report on scams, fraud, consumer news, and other questionable business practices online. [scamFRAUDAlert WayBack](#)

We believe the internet is a great tool and a global community. Keeping this community safe has been our primary mission and it should be a goal for every member. Why? Because it benefits us
