Get the Results You Need. Anytime.
Anywhere.

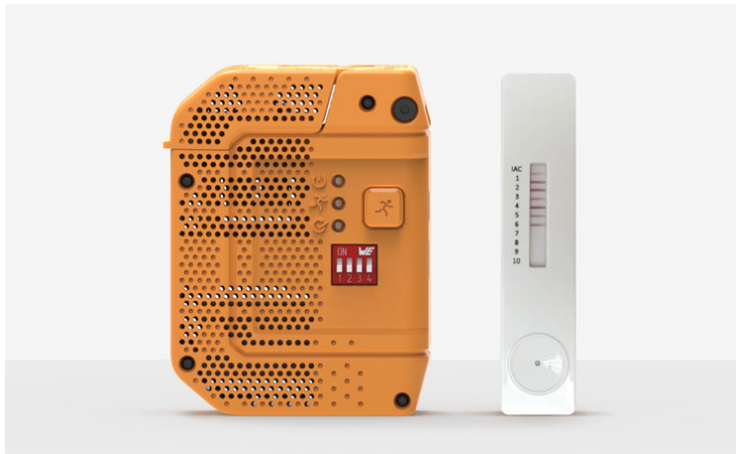

Go Anywhere & Get Results in 1 Hour

Students, teachers, scientists, farmers, brewers, hobbyists, and business owners now have convenient way to conduct PCR testing without a lab and its fees.

Go Anywhere & Get Results in 1 Hour

Students, teachers, scientists, farmers, brewers, hobbyists, and business owners now have convenient way to conduct PCR testing without a lab and its fees.

Extensive Testing Kits

Detect microbes or genetic material in the environment:
human pathogens: (Eg: respiratory, food poisoning, STD, Lyme); plant pathogens; food adulterants (Eg: horse meat); spoilage agents (in beer, wine, other foods); GMO detection.
One test can detect 8 different targets with maximum 32.
