

## Forrester Consulting Finds Companies Get 13x ROI with Legion WFM

Learn how your business can achieve these transformative results.

[READ NOW](#)

# Optimize labor efficiency and enhance the employee experience simultaneously

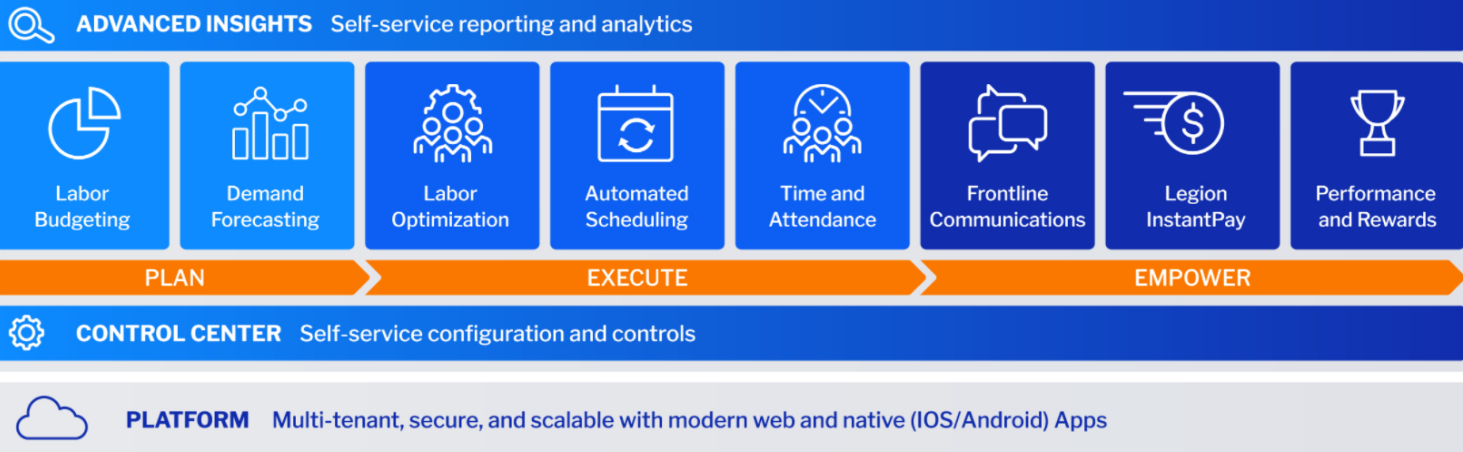

[Support](#)

Workforce Management is the most important platform for your business, and we can help you optimize labor efficiency while simultaneously enhancing employee experience.

Legion's industry-leading, AI-powered workforce management (WFM) platform optimizes labor efficiency and employee experience simultaneously – at scale. And we proved it. Forrester Research calculated that customers get **13x ROI** with Legion WFM. Plus, employees love the Legion mobile app – more than 95% of our customers' employees use it every week.

## Loved by customers and widely adopted by their employees

**Director of Workforce Operations**  
National Discount Retailer

"Legion's product roadmap begins where others end. Their modern architecture enables the engineering and product teams to focus on building new features: staying ahead of legislation, tuning AI and Machine Learning (ML) to drive efficiency, and building features that directly engage our workforce."

## AI-powered workforce management

Optimize labor efficiency and enhance the employee experience simultaneously

### Labor Budgeting

Legion Labor Budgeting enables Legion WFM to create labor budgets using accurate, long-term forecasts powered by machine learning, as well as operating hours, labor models, wage rates, and other rules used for executing weekly schedules. Budgets can be fine-tuned using templates and what-if models and then set for automatic execution with Legion Automated Scheduling.
