- ALL-IN-ONE SOLUTION: Other lead test kits require you to add vinegar or other chemicals. Not Sherlock. Our lead test swabs are ready to go out of the box. Just snap the tip, and test.
- QUICK RESULTS: Sherlock lead testing swabs are provide accurate results in as little as 30 seconds.
- GREAT VALUE: Each package contains 40 non-toxic ready-to-go test swabs, more than most comparable kits.
- WORKS ON PAINTED SURFACES: The Sherlock lead test kit is most often used to test for lead on painted surfaces. But, with the exception of ceramics, it can also be used on other surfaces, including antiques, toys, woodwork, jewelry, bathtub glazes and plumbing.
- SAFE TO USE: Sherlock swabs are non-toxic, odorless and do not stain clothes or skin.
