

AAP Program Highlight

What are your patients' biggest frustrations when it comes to their medications? Cost? Insurance coverage? How about availability? Have you had to tell a patient their prescription is delayed because you are out of an item they need? We have an answer for that! It's called [SmartSync](#), AAP's customized intelligence-based bulk ordering program.

Contact your Territory Manager or [Member Support Representative](#) to see if SmartSync can help your inventory problems.
