

Designed with your family's safety in mind

Enjoy peace of mind with spam blocking, location sharing, contact controls, and more— included with all plans.^{1,2,3}

[Explore plans](#)

Help protect your family from spammers

When you turn on spam blocking, your phones won't ring when a number we identify as spam calls you.¹

[Learn about spam blocking](#)

Block calls and texts from strangers

If your child has an Android phone, you can turn on contact controls. That way, only trusted numbers can call or text your kids.

[Learn about contact controls](#)

Establish digital ground rules

Set up Google Family Link from the Fi app on your child's Android phone to protect your family's safety online. Guide them to age-appropriate content, set screen time limits, review apps before they're downloaded, and more.

[Learn about Family Link](#)

Locate your family while on the go

People on your family's phone plan can choose to share their real-time location with each other in the Google Fi app.² Location can be shared for a set time or indefinitely.

[Learn about location sharing](#)

More peace of mind from Google Fi

Privacy for your online activity

All phones on Google Fi get access to a VPN for a private online connection.⁴ When enabled, it encrypts your online activity when you use cellular data and Wi-Fi. On Pixel 4 and newer Pixel phones, you'll get even more peace of mind, as we automatically encrypt your cellular data by default.

[Learn about VPN](#)

Privacy for your family's calls

Calls between Android phones on Google Fi are private by default with end-to-end encryption. Third parties—including Google—won't be able to access the content of your conversations.
