SOLAR POWER SYSTEMS, WHOLESALE QUOTES & COMMERCIAL SOLUTIONS (720) 474-6050

Welcome to Solaris

We provide custom designed, quality solar power systems for roof-top photovoltaic arrays and ground mount energy systems nationwide. As an innovative distributor, we supply industry leading solar products and components for residential and commercial applications. Our inventory includes solar panels, solar batteries, solar power inverters, charge controllers, racking & mounting, solar panel kits, accessories, and a wide variety of products for photovoltaic systems to American homeowners and businesses.

Our Services

Whether you need a photovoltaic array for your home, business or next installation project, we have the services necessary to help provide you with a better quality and higher efficiency solar power system. Our industry leading solar permit packages.
