RECOMMENDATIONS

SNAP™

Low shrinkage for better fitting crowns and bridges.

- Extraordinary marginal accuracy.
- Dramatically reduces polymerization shrinkage.
- Delivers a better fit than methyl methacrylate-based materials.
- Features a true doughy stage.
- Lower heat release.
- Choice of extended shades.
- Exceptional color stability.
- Very economical to use.

Try this product in your practice. If it doesn't meet your expectations, return it within 45 days at our expense. We'll give you a full refund, including the UPS Ground shipping charges*.

	Price: \$60.95

Relate™ 40gm Powder Refill

Chemically speaking, Relate is identical to Parkell's popular SNAP™ Temporary Resin, with minor adjustments to allow for a clean burnout. Its special blue color makes Relate exceptionally easy to read.

S458R - Relate™ Powder - 40gm. bottle	Qty: <input type="text" value="0"/>
	Price: \$19.95

SNAP™ Liquid Monomer

Note regarding SNAP™ Liquid Monomer:
The UPS Hazardous Materials surcharge will be charged separately for this product.

- This product can be shipped Domestic air with the \$42.50 hazmat fee
- This product can be shipped Domestic Ground with NO HAZMAT FEE.
- This product may only be shipped within the Continental US (48 states).

Attention Relate™ Liquid Monomer Users:
