

FUSION POINT CONSORTIUM OFFERS UNPRECEDENTED ACCESS TO PURDUE INTELLECTUAL PROPERTY

*Now available to Capstone Plus
project sponsors*

Purdue patents, copyrights, and designs are now available to Capstone Plus project sponsors through the Fusion Point Consortium. Corporations may take advantage of the IP available from the Purdue Research Foundation. Membership fees apply.

Capstone Plus projects are available in 6 technical specialties, including:

- Agricultural & Life Sciences
- Biomedical Engineering
- Chemistry & Chemical Engineering
- Civil Engineering
- Electrical Engineering & Computer Science
- Materials & Mechanical Engineering

EMBRACE THE FUTURE OF PRODUCT DEVELOPMENT WITH CAPSTONE PLUS.

Forging Connections - Creating Impact

The Fusion Point Consortium from Purdue Research Foundation (PRF) advances existing intellectual property (IP) toward commercialization in cooperation with

the Purdue Polytechnic Institute School of Engineering Technology

and the Purdue University Krannert School of Management.

The Fusion Point Consortium was developed to leverage the inherent strengths of academia and industry while mitigating their inherent weaknesses. Allowing corporations to access innovative Purdue IP through intensive development projects provides a unique opportunity for true collaboration.

The Capstone Plus senior technical project embodies the vision of Fusion Point. Each academic year, exceptional Purdue students come together with one goal: to support the commercialization of existing Purdue technologies under the leadership of visionary sponsors.

The Capstone Plus program

Capstone Plus provides sponsors with access to Purdue University intellectual property, School of Engineering Technology (SoET) expertise, and Krannert School of Management (KSoM) marketing talent in a multidisciplinary value proposition.

Capstone Plus benefits

Now offered in addition to the seminal SoET Capstone Project:

- Focuses on commercializing existing technologies from the PRF's extensive IP catalogue
- Encourages the formation of a cohesive, multidisciplinary product development team
- Engages course instructors and faculty as student mentors

Capstone Plus project responsibilities

- Project proposal
- Design
 - Conceptual
 - Preliminary
 - Critical review
- Fabrication
- Testing

- Market potential
- Voice-of-the-customer input
- Marketing plan
 - Objectives
 - Strategy
 - Implementation benchmarks

- Team mentorship
- Assessment events
 - Deliverables presented at predetermined intervals
 - End of year final presentation

"The Capstone Plus project has been amazing. The students were able to take our concept and turn it into reality. We now have a functioning prototype that teaches us about the process and provides the needed understanding to scale up."

*-Nien-Hwa Linda Wang
Maxine Spencer Nichols Professor
of Chemical Engineering*

Discover the Fusion Point Difference

Capstone Plus projects bring existing IP closer to commercialization

Students develop entrepreneurial mindsets and teambuilding skills

Sponsors may choose up to two Capstone Plus projects per academic year

Fusion Point membership fees include access to Purdue IP
