### 1Link<sup>sm</sup> News and Updates

4/6/18:

In order to facilitate continued efficient, secure transaction data transmission on 1Link<sup>sm</sup> and to eliminate the dependency on Java, the Federal Home Loan Bank of New York (FHLBNY) is migrating the security device employed to RSA<sup>TM</sup> from Gemalto, and eliminating signing through Entrust TruePass<sup>TM</sup>.

Effective April 16, 2018, the RSA security device will:

- **No longer be required** for Advance Transactions, and will
- **Be required** for Wire Transfer Transactions to perform the following actions:
  - Create
  - Modify
  - Delete
  - Approve/Reject

During the week of April 9, the FHLBNY will send RSA security devices to all authorized Wire Transfer Users along with a User Guide detailing instructions on how to establish a unique four (4) to six (6) digit user PIN and execute a Wire Transfer transaction.

We ask that you establish a unique PIN for your RSA security device on Monday, April 16, 2018, to avoid any interruptions in processing Wire Transfer transactions on 1Link.

Instructions are also available at [www.fhlbny.com/1link/device](http://www.fhlbny.com/1link/device).

We strive to make this transition as seamless as possible. Thank you for your patience during this time.

Please contact the 1Link Helpdesk at **(800) 546-5101** if there are any questions or concerns.

### 1Link Information Reporting

Add value to your membership by taking advantage of all the Information Reporting features 1Link offers.

- Prior and Current Day Reporting – Review, download, export, or print reports reflecting account balances and transaction details
- Customize reports to meet your needs, e.g. list transactions over a specified amount to facilitate daily cash management
- Access many HLB's standard daily and periodic reports at your convenience

**Report Delivery Information** — Schedule automatic delivery of information to yourself and others in your institution via email, such as:

- Prior and Current Day Reports
- Customized Reports
- Special Reports
- Wire & Advances Reports

**Alerts** — Receive information on some event that has occurred or a trigger for something you may need to do, such as approve a transaction by scheduling alerts.

The following Alerts are currently available in the 1Link system:

- Advance Transaction Status – Alerts Users when an Advance is at a certain status
- Transaction Status– Alerts Users when a Trade is at a certain status
- Call Alert – Alerts Users 12 days prior to a Security in your portfolio being called
- Maturity – Alerts Users 12 days in advance of any maturing security in their portfolio

We will notify users as additional alerts become available.
