• [Dual plus Alarm Setting] - Updated in 2019 from dual alarms to three alarms. You can either set two or three alarms to better WAKE you up. One for you

We're aiming at providing the minimalism design for customers. **JALL wooden alarm clock** is stylish and simple enough to fit your house and furniture. It's not only an alarm clock, but a nice extra decoration for your bedside.

**3 Alarm Setting**  
It provides 3 alarm settings. You can set 3 different time on the same day. For example, if your wife and you wake up at different time, it's certainly a good choice for you. What's more, it can also be as a medicine reminder for the ages. There's an extra mode "oNE" or "--E" to decide whether it rings on weekend or not.

#### Sound Control

You can set it to an eco-mode for sound control. It's a power saving mode that you can only wake it up by making sounds or touching it. Some people may think it doesn't display as defective but NOT, it's just set to sound control mode by mistake.

**3 Level Brightness Adjustment**  
It provides 3 levels of brightness adjustment. L3 is the highest while L1 is lowest. It's better to lower the brightness at night so that it won't be too sharp for your eyes.

#### Trouble Shooting:

**Q: Why the clock time only display when I touch it? It keeps turning on and off from time to time.**

**A:** You may have set it to SOUND CONTROL mode by mistake. Please DOUBLE press "DOWN" button to get it right. Set the value "-- : 5d" to turn off sound control function.

**Q: Can I set the alarm volume higher or lower?**

**A:** No, the volume is fixed and not adjustable.

**Q: Can it work without cords? Can I use batteries to make it work?**

**A:** Please understand it can power by batteries BUT it consumes batteries very very fast. We don't recommend to use batteries for long time working. Batteries option is only for travel and temporary use.

It's easy to appear digits dimming when batteries power is not enough.

## Customer questions & answers

- Q. Have a question? Search for answers
- Question:** Why my clock doesn't turn on until I touch it? Is it defective?  
**Answer:** You must have set it to sound control mode by mistake. It's an eco-mode for power saving. Try to double click "DOWN" button to turn it off. If you still have trouble, contact the seller for a more detailed instruction book in pdf. They have updated a new user manual and it's very helpful.  
By De Bruyne SELLER on July 16, 2019

★★★★☆ Hope this helps.  
June 20, 2019

Color: Black Verified Purchase

Since replacing my cable box, I no longer had the time showing. This clock is small enough to sit next to the cable box and the numbers are large enough to read across the room.

E. Sander

★★★★☆ Very nice looking clock - sleek, modern. Clear digits, but not too bright.

June 7, 2019

Color: Black Verified Purchase

Cool looking clock - a bit different than your basic, standard alarm clock. Pretty easy to set the time and alarm times - did have to read the directions, but pretty straight-forward. The temperature is kind of nice. I don't think I'll use the relative humidity for anything, but it's fine. Standard beeping alarm sound - I'm a medium sleeper and it will definitely wake me up. Would buy it again if I need another alarm clock.

### Product Description

We're aiming at providing the minimalism design for customers. **JALL digital calendar day clock** is simple enough to read and set up. It is good present for the aged seniors and the dementia, help them to know the time easily.

#### Simple controller

- 7 control buttons, simple and easy to adjust.
- The digital calendar day clock is not only set on the desk, but also hung on the wall.
- The leg of the clock can be hidden when you hang the clock on the wall.
- The USB socket is designed for testing purpose, so it does no effect on the clock when you start to use it.

#### Friendly Setup Interface

### Friendly Setup Interface

Here you can set the digital calendar day clock as following:

- Set Time
- Set Date
- Time Mode
- Date Mode
- Language
- Auto Dimming
- Color Mode
- Alarm 1-5
- Volume

#### Yellow Color Mode

Setting the color mode, you can switch the display color between white or yellow.

#### Automatically adjust brightness with time

Setting the auto dimming, the brightness of the clock will adjust automatically with time.

#### Five Alarm Clocks

Five separate alarm clock settings, help you to remember the time.

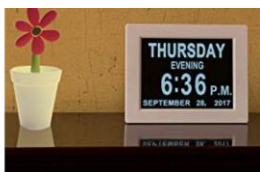

### Something Important

#### IMPORTANT

The Digital Calendar Day Clock is packaged with a thin anti-scratch screen protector. Please feel free to peel it off using the pull-up tab. Please be sure not to apply pressure to the high quality non-reflective LED screen.

The Digital Calendar Day Clock has an Auto Switch-On Facility when

Please be sure not to apply pressure to the high quality non-reflective LED screen.

The Digital Calendar Day Clock has an Auto Switch-On Facility when connected to the power supply. To power the clock off or back on, press the On/Off button.

★★★★★ Day, date and time at a glance!

July 4, 2019

Color: White | [Verified Purchase](#) | [Early Reviewer Rewards \(What's this?\)](#)

Got it for my 87 year old husband who has a hard time remembering the day of the week, and he loves it. Only one thing would make it better. I'd love if it had some way of including a reminder of events for the day that you could set up and review by pushing a button. On one screen would be the day, date and time, on the other, events for that day. Maybe it could be linked to a smart phone calendar. One thing I do love is that it can be set so that everything dims down at night. On the whole we both love it.

 ★★★★★ **Easy to see**  
 July 6, 2019  
 Color: White | [Verified Purchase](#)  
 This clock is perfect for my room. The large screen makes is really easy to read all of the information. I also really love the autodimming because do not like a lot of light when I sleep. It makes is so that I can still read it at night, but it isn't distracting.

 ★★★★★ **I love, love, love**  
 June 27, 2019  
 Color: White | [Verified Purchase](#)  
 I love, love, love...the look of this alarm clock and to know that it only briefly shows the time when clapping or tapping it is a huge plus to me. The instructions are a bit complex. They do have in English, but the unit is a bit confusing to figure out. But I just needed it for time and alarm. That is all I wanted and this fits me perfectly.

 ★★★★★ **Great for our Dad who has Alzheimer's!**  
 July 14, 2019  
 Color: White | [Verified Purchase](#)  
 My Veteran Dad has been living with my wife and our 2 youngest children for 8 years. It's only been a couple of years since he was diagnosed with Alzheimer's.  
 Lately, he had been constantly asking everyone what day it is or time and even thinking that he was back in the 1940's. He is so cute and enjoys watching cartoons. I believe it's the colors on screen that keep him entertained for a couple of hours a day  
 Anyway,  
 we tried everything from buying a chalk board to purchasing the largest calendar we could find and more!  
 Then one day while surfing Amazon Prime, I found this clock. I bypassed it many times before actually ordering it. I kept thinking nothing will work ever!  
 Well, I was definitely wrong and they only issue we had for a couple of days was that he thought we purchased it so that he wouldn't be late for work  
 I still use the chalk board only as a means of communication and wrote, "Dad your retirement has started so enjoy"
