OUR COMPANY, OUR MISSION

Learn more about our company's goals, principals, and our purpose in the clean room industry.

ABOUT

Creating Solutions To Change The Cleanroom

Industry

Performance Assurance Systems is committed to the development of innovative improvements in sterile environment design that makes our clients performance and functionality improved both in compliance adherence and personnel performance.

OUR MISSION

Our mission and vision is to be a vital resource to operators and certifies of cleanrooms by offering unique and innovative products that save time, money, and resources allowing our customers to gain a competitive edge in the market through increased productivity and decreased expenditures and downtime.

OUR GENESIS

Performance Assurance Systems was formed in 2016 by John Bentley, Dean Pedalino, and Peter Day. Each of the three partners is a recognized leader in their respective industries. Peter and Dean currently own Integrity Partners of Florida a consulting company focused on clinical and business operational management for the pharmaceutical industry.

John Bentley president of B&L Builders has been a custom designer and builder of cleanroom processing facilities. Together they built several clean room processing facilities focused on USP <797>, USP <800> sterile, USP <800> non-sterile, and USP <795> non-sterile compounding respectively.

OUR DEVELOPMENT

The PASport was developed out of the desire to supply our clients with a better mouse trap that would provide the industry with a product that would deliver even the smallest of players a competitive edge in the

marketplace. The PASport device is just the first in coming line of products designed to enhance the efficiency and productivity of the sterile processing industries.

Our mission and vision is to be a vital resource to operators and certifies of cleanrooms by offering unique and innovative products that save time, money, and resources allowing our customers to gain a competitive edge in the market through increased productivity and decreased expenditures and downtime.

FAQ

Frequently Asked Questions

View our frequently asked questions to find the value and benefit of having PASport devices installed at your facility. If you have additional questions, please do not hesitate to reach us directly by calling Performance Assurance Systems (888) 296-7775

How does the PASport device save money?

In a small facility (5-6 ceiling mounted HEPA filters) the PASport device can save between \$600 to \$1200 per certification. Savings increase as the number of filters and complexity of accessing them increases.

How does the PASport device increase the reliability and accuracy of my tests?

Why would I spend money on the PASport device?

Who do I get to install the PASport?

PRINCIPALS

Meet the PASport Principals.

With our team of principals, we can assure our clients to our commitment to the development of innovative improvements in sterile environment design that makes our clients performance and functionality improved both in compliance adherence and personnel performance.

Peter Day, R.P.H., C.P.H.

Serving as a managing member of Integrity Partners of Florida, Peter provides business operational and clinical consulting services to the pharmacy industry. Peter also helped build a nation wide compounding company spanning several states before selling his interest to his partners.

He has also served as Chief Operating Officer for a multi-faceted pharmacy organization, directing all operations serving retail, long-term care, DME/HME, compounding and intravenous infusion pharmacies. He also helped create and guide the operations of the premier long-term care pharmacy company, Integrity Pharmacy Services, from its inception to 65 Million dollars in annual sales revenue in less than five years as its Chief Operating Officer/Chief Pharmacist.

Mr. Day is a past member of the American Society of Consultant Pharmacist PAC Committee, is a well-known industry speaker at national events and on regional broadcast outlets, and has served as Assistant Clinical Professor at Nova Southeastern College of Pharmacy.

Dean Pedalino, R.P.H., C.P.H.

Dean brings more than 30 years of management experience in institutional pharmacy management and pharmacy consulting to the team.

Most recently, Dean served as a CEO and Managing Partner for Pharmetrics Specialty Rx a non-sterile compounding company achieving 14 million in revenues during its first 18 months of operation. In addition, Dean started 5 pharmacies in 3 states during that time. Dean served as C.O.O. for Executive Pharmacy Services a multistate long term care pharmacy serving 6,000 long term care patients.

Dean has been the consultant to two Fortune 500 companies.

Dean is a graduate of St. John's University, College of Pharmacy and is a member of the American Society of Consultant Pharmacists (ASCP) where he served 8 years on the Government Affairs committee

He is Past President of the Pinellas Pharmacy Association.

He is also a member of the board of directors for the Florida Pharmacy Association.

John Bentley

John Bentley is one of the managing partners here at PAS. His focus is on helping to advance usability and effectiveness of the clean room environment through the design and development of new and innovative products. John has been the president @ B&L Builders, Inc. "a specialty contractor" since 2001.

This position has provided him a unique and up-close perspective of cleanroom design, construction and implementation across a range of industry. Experience in the industry began in 1987.
