Liquid Canvas transforms physical spaces into evocative displays of meaning and connection:

- Fantastical *Story-based Video Installations* using live-action cinematography and subtle effects to make ordinary spaces magical.
- *MultiState Design* transforms static paintings into animated works of art, adding multiple layers of dimension and bringing paintings to life.

Our elegant and engaging digital art installations are custom designed for corporate, hospitality, and residential spaces.

We develop a range of creative approaches to address your needs, vision, and unique space requirements. Our creative team of filmmakers and artists produce your piece, and expertly integrate it into the installation.
