ECOMMERCE FREIGHT MODERNIZED BY TECHNOLOGY

Enter Tracking Number

TrendTransport's services and technology are focussed on meeting the ever growing consumer expectations for ECommerce Freight

Accurate Data

Reduce customer service requests and complaints through TrendTransport's real time tracking technology. Every shipment is proactively monitored to ensure customers will always know when they can expect their delivery

Expedited Delivery

We know the needs of your ECommerce customers. That's why at TrendTransport we use team line haul drivers to ensure the fastest transit time available.

TRANSPORT

Residential deliveries have a 20%+ increased likelihood of a claim or delivery dispute. Our drivers take pictures at time of delivery and automatically available to view on our site by customers, shippers, and brokers
TrendTransport's proprietary Picture Proof of Delivery technology can reduce claims and disputes by up to 50%.
