Who We Are

The Solution to a Problem

Trend Transport was founded by veterans of the transportation industry who strive to provide innovative solutions.

We know that delivering expedited shipments directly to customer's homes on demand is quite the undertaking for shippers. Trend Transport's investment in technology, specialized services and equipment provides our customers with the ability to not only meet those expectations, but to exceed them.

Current Industry Trends

Every business is expected to match the service of billion dollar companies like Walmart and Amazon

Traditional carriers can't handle today's freight in a manner that meets the high expectations of consumers and shippers.

T R A N S P O R T

The Trend Advantage

Shipping with Trend Transport will provide you with the ability to move your freight at the speed of today's marketplace. Our technology will provide fast, accurate feedback on your freight movements, allowing you to outperform customer expectations.

TrendTransport is your solution for ECommerce freight. Contact us to find a broker.
