Minnesota Hemp Farms was founded in 2016 and the first to plant Hemp in Minnesota since the 1950's. We are the largest USA based Hemp Foods Company, selling semi loads of bulk wholesale hemp goods each month. We are vertically integrated focused on growing for Food, Fiber and CBD extract markets. We offer the highest quality bulk food ingredients such as hulled hempseed, roasted hempseed, hempseed oil, hemp protein powders. We can provide processed products in bulk or private label in your brand. We sell AOSCA certified hemp planting seed and offer buy-back of the growers crop via full production contracts. Our retail CPG brand is Field Theory™ "Bring Hemp to Life™" and is available fine retail grocery, health food outlets as well as online. New and exciting Hemp products are always in development...
