- Question:** ear tips the size of this?
Answer: Large and Medium. Same size as the original
By Yawei Technology SELLER on March 5, 2020
- Question:** Do these improve the tightness of the ear fit?
Answer: Yes, we have a good seal on the ear fit test, because we use memory foam as a substitute and the original silicone material is different, and the comfort for everyone may be different
By Yawei Technology SELLER on May 14, 2020
- Question:** ear tips the material of this replacement?
Answer: These are not made of silicone like the apple tips, they are soft like memory foam.
By Lorisa Bonales on May 13, 2020
- Question:** What are the cleaning instructions for this? Is this safe to wash?
Answer: Do not put them under water. I'd suggest taking a Q-tip & scrubbing any imperfections with a mild soap or a light cleaner you have.

Molded to your ear
Reviewed in the United States on March 4, 2020

So I decided to hop on the air pods trend like most people in their young 20's & Getting anything that you can't test in the store is always a deal breaker. I have never liked apple headphones & When the first set of airpods came out I decided to pass on it. When the airpod pros came out, those were more my style because I like the fit of headphones that look like that typically, I like to do the head shaking test when I put headphones in, & my airpods did not pass that test with the silicone buds, my heart sank. I couldn't return them so I started to look into alternatives that would help me atleast be able to bear the issue I was having. I discovered these foam airpod buds & with not many items like

Took a chance with these since they only had a few reviews but very glad I did. These snap into place just like the OEM tips. No problems there.

My left ear is probably between a small and medium in the Apple tips, so it always felt a little loose. I used the

100% Better Than Original AirPods Pro Tips

I have only had my airpod pros for a month, but I kept finding myself continuously checking them and adjusting them so they wouldn't slip out. I really noticed it when I was building a dresser for my son and my head leaned one way or another. They would fall right out. I read a lot about memory foam replacement tips and these had the best reviews, although there weren't a lot of them. I took the chance and I will tell you that I am 100% recommending these to anyone who has the issues of the airpod pros falling out. These fit like foam earplugs and are super comfortable and I forget I have them in sometimes. The sound quality is exactly the same and the fit in case without any issues. HIGHLY RECOMMEND replacing your original tips even if you don't want to. You will not be disappointed.

Did exactly what I wanted them to!

I bought these for two main reasons, to prevent the AirPods from losing seal due to slippage, and to provide a little extra noise cancellation. It has fulfilled those purposes perfectly. They seal great and really do boost the noise blocking a lot. They were very easy to install, and the little plastic case is a convenient way to store the pieces I am not using.

My only complaint is very minor, after a little bit, about twenty minutes or so, I get some minor discomfort in my ears due to the foam pushing back more than the silicone tips did. So far, it is no big deal.

Doesn't slip out

I thought I was going to have to give up my AirPods Pro. These give me the secure fit I've been looking for. The trick though is to either give them a little twist when you put them in or reach over your head and pull up slightly on the top of your ear with one hand as you put in the AirPods with the other.

NOT WORTH IT

The plastic clips are flimsy as hell and have already broken. They also did not grip to the APPS like the Apple included silicone ones (which you have to tug super hard to get off). As a result these buds would stay in my ear after they disconnected from the APP. After putting the right one back on (after getting stuck in my ear), the clip broke and it is now unusable. Just awful.

Just received these ear bud tips today, fast delivery, packaged well and more importantly they fit GREAT! comforting the ear and fits perfectly on the air bud! I received 2 different sizes they both actually fit snug in my ear so I am pleased to have a back up pair! Well made great quality!

A billion times better than the originals

I have "irregular" ear canals, and Apple's headphones have never worked for me. I got the AirPods Pro in hopes that one of the three sets would fit my ears, but none of them did. Bought these instead, swapped the Apple ones out for these ones, and now the AirPods are perfect. Genuinely made a world of difference for my weird ear canals.
