

Company Info

We build relationships.

About Makergadgets

We are a very small group of tinkerers and hackers coming up with solutions for problems that we run across while we print. So far we've solved our extrusion and air quality issues with simple and economical yet elegant products. Our mission is to get to others the tools and products we've come up with at as minimal a cost as we can. We love to hear your suggestions and problems which you need fixed!

Contact Us

We love to meet new people! Please send us a message if you have any questions, suggestions, or would like to discuss partnerships or bulk sales.
