**Ailunce HD1**  
DMR Dual Band Handheld Radio

- True-2-slot
- Compact Convenient
- Penetrating Power
- Advanced Audio
- Professional Battery
- Long Standby
- DTMF

#### Ailunce HD1 Digital Ham Radio

- HD1 added FM radio function
- Storage 32 IDs, and can edit, add and delete ID
- HD1 can switch digital and analog mode on keyboard
- HD1 can operate on keyboard when you are receiving a call
- HD1 battery 3200Mah, very big battery capacity, long standby time
- HD1 can programming radio by hand, not only in analog mode, but also in digital mode (such as secure call and group call)
- Under VFO mode, can write frequency via the keypad
- Three Scan method: Time, carrier and search

[View larger](#)

#### Important specifications

- Edit contacts, Radio ID, color code, and other settings via keypad
- Display three channel mode: frequency, channel, and name
- True-2-slot : Provide 2-slot communication which allows for 2 talk paths on 1 frequency
- Promiscuous function make you listen all the signal, even if you are not in the same group
- Display the Caller ID, Name, City, State, etc.

**How to hand programme HD1 in digital mode?**

Programming by hand, we must make sure radio is in frequency mode.

Short press Exit key to switch between frequency and channel mode.

First we need add priority contacts inside radio.

Menu->Contacts->Hand write the contacts info. Like ID, Type(secure call/group call/all call), Name, City, Province, Country.

- Step 1: Long press Exit key to switch between DMR and FM. FM means analog mode, DMR means digital mode

Please Note:

- Step 8:: choose from 1 to 16( the password for each group is pre-setted in software)
- Step 9: Dmr mode: A.Direct-direct communication between radio( not via repeater) B. Repeater-

### Customer questions & answers

Have a question? Search for answers

**Question:** Does this radio have fcc part 90 certification for business band frequencies?  
**Answer:** I don't think so. I cannot find any licenses for this radio on the FCC ID lookup for 2AAR8 (Retevis). Furthermore I've been reading as well as seeing YouTube videos showing how easy it is to field program this radio which is against the FCC Part 90 rules. This radio has no FCC certification which means it's not legal t... [see more](#)

★★★★★ You can program the entire radio from the front panel there was no need for a computer which makes it an excellent feature. Their customer service Department is excellent  
Reviewed in the United States on February 2, 2018  
**Verified Purchase**

I received my HD1 2 days after placing the order. I am very impressed with the build quality and the overall features with this radio. You can program the entire radio from the front panel there was no need for a computer which makes it an excellent feature. Their customer service Department is excellent. I had a minor issue with the radio getting hot when using high power I contacted customer service and they responded to me in less than 24 hours on how to remedy the problem, that being said I would recommend this radio to anyone with an amateur radio license that is looking for a handheld DMR radio

★★★★★ **The Radio You Always Wanted - It Has Arrived**

Reviewed in the United States on April 28, 2018

**Verified Purchase**

Let me preface this initial review by saying I have owned the HD1 for only a few weeks, but I feel I have learned enough about it to give an honest opinion. I must also note that Retevis Customer Service (Angela) has been second to none since my purchase. I did have some issues with the software, but her assistance, along with some trial and error attempts, and watching a number of YouTube videos re front panel and software programming, have now allowed full enjoyment of the transceiver to this point.

Right out of the box, the build quality of the HD1 will immediately impress you. I have been using Motorola radios for forty years and have been waiting for a Ham friendly high build quality non Motorola radio for many years. It has finally arrived. The sound quality at high volume won't disappoint you. Battery life has been extraordinary. Although, so far, my use has been mostly receive only, the battery goes for days before needing a charge. The backlight has an 'always on' setting that has very little impact on battery drain from my experience. I did have some frustration when I first tried to program the radio via the software. DON'T give up. Update the firmware. Make sure you install the proper drivers for your Windows OS. Clear out of DFU mode, start the programming software, turn the radio on, make sure the proper COM port is selected and everything should go smoothly. My first week with the radio was aggravating, but no longer. A programming CD along with the cable

would be a great assist.

Amazon Customer

★★★★☆ **Not like other DMR radios**

Reviewed in the United States on March 9, 2018

**Verified Purchase**

Solid feeling radio. Not like other DMR radios. 4 things that need to be done to increase the rating:

1. The belt clip is not designed to be used on normal to large belts. It's designed to be used on dental floss sized belts.
2. Very annoying to constantly see the "Missed Call Log" always popping up even after you respond to the call.
3. Lack of a Talk Permit Tone. You don't always have time to be checking your screen to see if the radio made contact with the repeater/hotspot/user.
4. Did not stick to the traditional female SMA connector on the radio to allow a broader range of antennas to chose from.

Fix numbers 2 and 3 via firmware update and I would consider upping the review to 4 stars.

Timothy R.

★☆☆☆☆ **but the guts are no good. Pros**

Reviewed in the United States on May 11, 2018

**Verified Purchase**

**DON'T BUY WARNING**

Tough radio on the outside, but the guts are no good.

Pros: Not many, but there are a couple.  
Great Battery Life  
Tough and rugged case  
Good receive audio (when it does receive)

Cons:

Transmit audio is weak or muffled at best. This alone makes this radio Unusable!! Tried a speaker mic, that made it better, but then I could not hear receive audio. No good.

Next, random freezes and lock ups requiring a reboot / restart. Cant rely on the radio and thus, again Unusable!!

Third strike and TOTAL DEAL KILLER - Receive issues The radio is random and inconsistent on the receive side too.

Eric

★★★★★ **Great Ham Radio!**

Reviewed in the United States on December 11, 2019

**Verified Purchase**

I bought two of these to use to scan my local law enforcement frequencies and also use as a communication method with other people like my employees as I do hold an Industrial Business Pool license to operate these in the business band and the fact that these are also FCC certified for that given that you set it up correctly. The sound is quite clear also it could be better like the higher end Motorolas or Kenwoods. Range is great given that you are using the correct band. Works with repeaters also. I chose this instead of the higher end Motorolas or Kenwoods because of the fact that these are dual band (UHF/VHF) which I hate about the higher end ones only being one band. I'm licensed for frequencies in both bands which would mean that I'd have to carry two separate radios or have to switch between the two in order to use both bands. Being able to use both bands is essential for me as we operate around buildings and in cities as well as straight line of sight on highways and whatnot. If you know how the radio spectrum works, that should be understandable. To sum it up through, great radio, no complaints!
