ABOUT LESLIE CLOSE

Leslie is a member of the (ASID) American Society of Interior Designers and (IIDA) International Interior Designers Association as well as a certified Feng Shui Consultant from the International School of Feng Shui.

By incorporating Feng Shui into our living spaces we are incorporating the principles of nature through the five elements of Feng shui; wood, fire, earth, metal, and water. The harmony of your space will have a direct correlation with the harmony between your mind and body. By consciously creating a harmonious environment in your living space, the harmony will carry into all areas of your life. Our home is a mirror of our own energy.
