Strong but lightweight grinder. Definite recommend

Reviewed in the United States on June 18, 2020

Color: Blue **Verified Purchase**

Grinders have come a long way since I first started using them. This one is strong but not heavy ..I guess because material is aluminum but I love that. Works perfectly fine, grinds up herb or spices or whatever without a problem. This is a cool kit because it comes with the storage container. The rolling device that also comes with it works well. Because this is a set of different items it would make a great gift but I got it for myself.. One of my obsessions is curry chicken but to make it at home the authentic way, you need to toast and then grind certain herbs ...coriander, peppercorn, cardamom, nutmeg. I will give update review once I tackle that bucket list project.

This is a very nice looking grinder that works perfectly for breaking up herbs and separating the fine particles at the bottom. It's smooth to turn and looks crucial. It includes a quality scraper.

There is not only have grinder but also have slid roll and a small storage box these gadgets are useful to me. After get these things, I don't have to worry about how to grind the herbs and spices. The patterns and colors on grinder are also lovely. I like it.
