Product description

Features:

Pull-without-Crotch for Self-Walking

♥Due to baby lack the ability to balance naturally, the wobbly first steps make baby feel frustrated when they learn to walk, also parents often experience significant back pain as must constantly bend over to hold their baby's hands To help your baby walk. Walking assistant provides a revolutionary and natural method for babies to learn to walk.

♥Parents simply fasten the support vest around the upper part of the baby's chest just below the armpits, adjust the handle straps to the shortest possible length or hold the support straps at the base of the straps to assist your child with hands-free balance.

♥The harness is great at keeping your little ones upright so they could keep their balance and helped them walk. Walking assistant allows babies to recover quickly from falls, giving them more courage in the process of learning to walk.

♥It gives babies a range of movement and freedom to explore the world around them,also both you and your baby can experience those first steps with confidence and security.

♥This babywalker is a great portable toddler belt for baby, easy to pack and convenient to carry, while visit friends and relatives, they can use this walking assistant to have fun with your babies.

♥- designed with upgraded oxford fabric which features lightweight, sturdy, durable resistance.

How To Use Baby Walker?

1.Fasten the safety buckle on the back of the walking vest and tighten strap as snugly as possible for proper support.

2.Vest should be tightened so it does not easily ride up on child.

3.Hold the handle straps securely while allowing your child to balance and confidently practise walking.

4.Letting children be hands free to improve their balance and stability.

Package Includes

1 x Baby walker Harness

Date First Available: January 23th, 2020
