It's my dream house style,it's so cute with a lot of detae such like slippers,towels,books.....but i have to say the instruction isn't very perfect ~for example the section A have a lot ,i can't find which one is correct,the part don't show the name clearly ~so i waste long-time for looking for the parts,and no any tools include,so i have to buy the tools additionally ~well~anyway i did it and i finished it ~i'm happy because it's truly beautiful ~

★★★★☆ **Turned out great! Super Fun!**

Reviewed in Canada on August 17, 2019

Color: Blue Time | [Verified Purchase](#)

This was my first miniature project I've taken on and this kit turned out to be fantastic! My kit came neatly packaged with no missing pieces. The instructions were in full colour with both English and Chinese.

Though there was maybe a few translations not quite right, between the words and the pictures, it was very easy to figure out. Take the time to go through and make sure you use the right pieces and read the instructions carefully! I liked that it's designed in such a fashion that you can make pretty much any pieces you want first and don't have to follow the order they give you. For example, I started at the end of the booklet and constructed most of my house first and then made the pieces for it. You Tube videos are a great help with different building techniques! All you really require to make it, is glue, scissors and tweezers, but I found it helpful to have some other tools on hand. A hobby knife and cut mat, small pliers, a ruler etc. I used Aleene's Tacky glue which worked great. I also used some stop fray glue on the edges of all the fabrics after I cut them from the templates. That was really helpful.

Some pieces are very small of course which can be a bit frustrating, but with patience, I accomplished all the pieces with no major problems. This is not a craft for someone to just easily slap together in a couple hours! It took me approximately 30 hours to complete over a couple weeks. It's time consuming, but very

★★★★★ **Incredible deal**

Reviewed in Canada on November 27, 2019

The quality of the kit is incredible considering the price. All the wood pieces are laser-cut and everything fit perfectly together.

The instruction is straight forward and quite detailed. If you can read an IKEA manual you can understand it. If you expect the manual to spell out every details for you in words then this kit may not be for you. What I will say is that the instruction is on par with any other model kits you will find on the market, including those from big names like Bandai etc.

There is nothing particularly difficult about the kit. You will need lot of patience, just like building any other model. You also need to have the appropriate tools, and more importantly the appropriate glues for all the different materials (paper glues, fabric glues, wood glues, clear plastic glues, etc). Or you could just use craft glues if you dont mind the outcome to be a bit less than perfect.

★★★★★ **Really Fun**

Reviewed in Canada on February 9, 2019

Color: Blue Time | [Verified Purchase](#)

I don't normally write reviews for products but I really enjoyed this DIY dollhouse. It was delivered very quickly (within two days) and it was undamaged and in great condition. There weren't any missing parts or broken pieces. The instructions were pretty straight-forward (although the way of doing some things can be done in an easier way than what the instructions suggest). Everything is pretty simple, if not time consuming to assemble. Some of the smaller objects can be a little tricky to put together but with a great music playlist, you can have fun putting it altogether. The end result is very satisfying. When the lights are lit and the music is turned on, the dollhouse looks very magical.

Great product. I purchased this for my sister as a Christmas present and she has already begun to build several piece of it (as photographed), and they all look great! All pieces arrived as described and have amazing detail. I cannot wait to see the finished product. Amazing price as well. I would definitely recommend this miniature DIY house!

★★★★☆ **Kit does not include music box**

Reviewed in Canada on April 30, 2020

Color: Blue Time | [Verified Purchase](#)

I just received this kit today. It is about \$10 more than other sellers, because it is supposed to include the clear cover and music box. I was excited to get the music box feature with Castle in the Sky music. However, the kit I received had the clear cover, but NO MUSIC BOX. Beware that while this listing repeatedly describes a music box, the item I received was not the one with the music box. Disappointing and misleading.
