Question: [How do I attach the silicone extend pads?](#)

Answer: If you rotate the knob, the cylinders will extend. You can only mount the pads with the cylinders extended. If your cup holder is small, you will not need them.

Question: [Can this fit a Samsung Galaxy 8 Plus \(+\) phone?](#)

Answer: I measured the opening of the Amwanan cup holder. It will take a phone, plus phone cover, up to 3 1/2" wide. The height is not an issue since it is open at the top. Hope this helps.

Question: [Does it hold an iPhone XR with a speck case?](#)

Answer: I have an XS in a similar case (not a Speck). I'm quite sure it would work fine. It opens wide, latches well, and releases very easily with a button on the back.

★★★★★ Hands free phone car holder

Reviewed in the United States on July 20, 2020

Verified Purchase

I decided I needed a hands free holder for my iPhone when I am driving for safety. This phone holder can be adapted to fit in my cars cup holder. I can now drive hands and worry free with my iPhone in this new holder to see clearly my phone and directions on where I am going. This is really a safety necessity when driving.

★★★★★ Solid holder for your phone

Very sturdy sold device to keep your phone in place. Even though my car didn't have a proper cupholder. The device was able to latch on tight. This is going to last for many years unlike the other cell holders I've bought over the years

★★★★★ Very useful cup holder
Reviewed in the United States on July 20, 2020

Verified Purchase

I was skeptical about how sturdy these gooseneck type phone holders would be and was pleasantly surprised after using it for the first time. This car cup holder is a great way to hold your phone. I have not been going very many places lately so I have tried it in both my car and on my desk. I do have a loopy case and it makes my phone stick up just a bit off the base. I just snap it off and it's not a problem. This is a great gadget if you're looking for a sturdy phone holder.

★★★★★ Value for money
Reviewed in the United States on July 11, 2020

The texture is super good, and it doesn't take up space, so it's easy to carry. The clip is very well designed. It can be shot both horizontally and vertically. Integrated structure, all functions are complete, all shrink in the rod body, and very good-looking, with convenience, in the future, no need to ask for people to take photos, one can easily handle.

★★★★★ Brilliant product
Reviewed in the United States on July 18, 2020

The ease of use of getting the phone in and out of the cradle is brilliant. The twist action of securing the neck into the cup is equally smart and easy. It does move at all when I drive. It hold my phone steady so I can see direction when I use map.

When the mobile phone is put in the shelf, the biggest feeling is that it is very convenient to put and take it, and the clip is OK and firm. It's very good. It's very convenient to assemble and it's very firm.

You don't have to worry about damaging the phone. The workmanship and texture are very exquisite. I'm very satisfied
