Description

[Reviews \(1\)](#)

- These LED lamps make an energy-efficient replacement and substitute for standard 60 watt incandescent lamps at 8.5 watts each bulb emits the bright light output of 800 lumens
- These bulbs are a great energy-saving replacement for old incandescent bulbs because each lamp has a total lifespan of up to 11 000 hours you won't need to constantly change your lightbulbs anymore
- These LED lightbulbs require less energy and can save money on your energy bill Each bright white light bulb works as a great replacement for old 60W incandescent bulbs
- These LED light bulbs have a color temperature of 5000 kelvin which produces a bright white color
- This bulb is not dimmable
- Does not ship to California
