Feature	Bopp film backing and pressure sensitive acrylic adhesive. High tensile strength, broad temperature tolerance, printable.

Application

Why Choose Us

bopp hotmelt packing tape

• Advantage of hot melt packing tape
(compare with Acrylic's)

1. - Great quick initial tack - Hot melt's quick tack property helps to adhere to dirty, dusty, and soiled substrates or plastics.

2. - High shear - Hot melt has greater shear to allow for better use on rigid corrugated boxes as well as overstuffed/under filled boxes.

3. - Consistent & easy release - The release coat used on hot melt allows for the tape to dispense with a consistent release through the entire tape length.

Our Factory

SGS certified
