- The gymnastic mat is made of double-layer fabric (also called drop material) to enhance durability and wear resistance. Durable commercial grade PVC tarpaulin with a thickness of 0.13mm has better airtightness and durability. The valve is well sealed, and inflation can keep the training pad a few days of pressure. The hardness and elasticity of the air cushion adjust the inflation time according to the usage habits to achieve the best experience.
- 10 ft/13 ft/16 ft We offer different sizes, the large size is suitable for professional training, and the small size is suitable for home entertainment or daily training. If longer rails are required, use splice strips to tie two or more mats together.
- You can put the air track roller pad, roller track air cushion, inflatable gymnastic mat, gymnastic air cushion on the floor of artistic gymnastics, gym floor, high-performance training, fitness club, dance club, school, gymnastic exercise, home entertainment, leisure Center, gymnasium, professional training, park or rental business. It can also be used on the beach or water, backyard, grass. Used for cheerleading / gymnastics / beach / park / family use.
- When you buy our gym mat, you will get 1 x electric air pump, 1 x repair kit (without glue) and 1 x handbag for free. The 500W electric pump is easy to inflate and deflate, allowing the gymnastic mat to expand or contract within a few minutes. The splicing strip allows you to piece together more inflatable floors.
- Comfortable experience and safety guarantee --- Inflatable gymnastic mat has good elasticity, effectively reduces the impact force generated during exercise, and provides good support for the body. In addition, because the surface is non-slip, you won't be injured during exercise.
