Labeling required

All products

[Seller University Video](#)

All products must have a barcode. If your product is eligible for [tracking with the manufacturer barcode](#), you don't need to print and apply Amazon labels to your items. If your product is not eligible, then it must have an Amazon barcode. To print and apply Amazon barcode labels yourself, select "Merchant" in the "Who labels?" dropdown menu and click "Print labels for this page". Or, you can choose to have Amazon do this for a fee by selecting "Amazon" under "Who labels?"
