Kathryn

★★★★★ Nicely wrapped 6ft Xmas tree

Reviewed in the United States on December 9, 2019

Color: Warm White to Multi Color | Verified Purchase

One set of lights went around a 6ft tree easily. The lights are dimmable so you can set them brighter than usual. The flashing of the lights are definitely migraine inducing if you keep staring at it. Slow fade is my favorite mode. When connecting a tree topper, I realized that this doesn't have the typical plug and socket type connection so had to run an additional extension to plug in the tree topper. Kind of a bummer, but that falls on me for not reading more thoroughly about the product. Twinkle mode doesn't twinkle just flashes really fast like; should be called a strobe effect rather than twinkle. Other than that, for the price, compared to typical Christmas tree lights, you can't beat it.

Cali

★★★★★ Reliable, Multiple Settings, Brightness Control, Remote, Multiple Strands Connect

Reviewed in the United States on January 6, 2020

Color: Warm White to Multi Color | Verified Purchase

We love these lights! One of the main things I HAVE to have for my Christmas tree lights are the slow fade from color to color. These lights have that, as well as quite a few other settings. They have a convenient remote for changing through the settings. Being LED they cost a lot less in electricity which is nice. Something I wasn't expecting to care about was the brightness setting. I think you can do 25%, 50%, and 100%. We mainly keep it at the 100 but we like having the option. Another feature I loved was how you attach the lights. We used two strings for our 8 foot tree. The two strands screw together very easily and then are both controlled by the one remote. Very smart!

Ms Lisa

★★★★☆ First Set Burned Out - White/Multi-Color

Reviewed in the United States on November 20, 2019

Color: Warm White to Multi Color | Verified Purchase

UPDATED 11/29/19 - Received my replacement set quickly. They've been on the tree for a few days now and so far so good, they have not burned out yet. Finished decorating my tree and praying they last the entire season. If they

burned out now it would be quite a bit of work to have to replace them. Bummed with the fact that the remote must be very close to the receiver box on the string to work properly, about 2-3 feet but it does work. I was excited to get these light and have both color and White Options. Well, I put these lights up on my tree and after half a 1/2 hour of use of the White Lights burned out and I am left with only color. None of White Light cycles and Modes work and they appear OFF completely during those times leaving my tree bare. The remote control does not work unless I'm 6 inches from the receiver box with my hand in the tree. Extremely disappointed. Returning to try another set.

Ellyn

☆☆☆☆☆ **Be wary - No UL holographic sticker**

Reviewed in the United States on December 1, 2019

Color: Warm White to Multi Color | [Verified Purchase](#)

Please be wary of using these lights on a Christmas tree especially, and really anywhere in your house. They do not contain the proper UL's red holographic label attached to the string of lights. They do include a UL symbol on the plug, but that is all that certifies, the plug. Christmas lights must have a holographic sticker attached to the string of lights if it has been certified safe and compliant by UL. No way I would take a chance on burning down my house due to sub par Christmas lights on my tree. Just not worth the risk.
