- [Reduce Pain]** : The outer diameter of these 30G lancets is only 0.31mm. It makes the wound smaller, reduce pain, and faster healing. For diabetics and other groups collecting blood samples several times a day, the virtually painless testing is much better.
- [Strong Penetrating Power]** : The lancets tip is manufactured from high-quality surgical steel and it is very sharp because of the cutted tip. The strong penetrating power can pierce the skin instantly to minimize the wound and collect enough blood samples at one time.

★★★★★ Reasonably priced and good quality

These are amazing! I was so worried about the finger prick but I just feel a little pinch. It comes with so many and you just can't beat the price. A friend of mine ordered these and gave me half, so I ordered my own box after testing them out and liking them. My package somehow got lost but my money was refunded. As soon as it posts to my account I will re order. Thanks so much!

God these for my father because he's a diabetic and needs to check his glucose twice daily. I like how thin the needles are. My father said the prick doesn't hurt at all, he said it feels like a small pinch. Great product, great quality. I like that it comes with a good amount of lancets for the price.

I purchased these based simply on price. I never really noticed any type of lancet was more or less comfortable. But I was surprised to discover these really do feel more comfortable and get a good sample on first try. Definitely will order ag again.
