I LOVE THIS STROLLER! It was a tad confusing to put together even with the manual but we did it. Yesterday was our first time taking it out and I must say its perfect. My son is 4 months old so I felt he outgrew the bassinet part already but I already had the compatible car seat and that ended up working perfectly! I'm a small woman (5'3" and 120lbs) and I don't feel it's too big or bulky. Definitely worth every penny.

A must have! I absolutely love the ease of this stroller! We have a larger jogging one which is heavy and large and I found it hard to maneuver. I was on the hunt for something smaller and found this. I LOVE it. Storage is large underneath and I love that I can take the bassinet part out and just click in the car seat. Best stroller ever.

This stroller was pretty easy to set up and use. I love just using the stroller frame as my daughter is still in an infant seat, so it is easy to just grab the carseat and place on the stroller!

Soy de Ecuador, y adquiri este coche a finales del mes de Mayo, tenia un poco de miedo porque se encontraba junto a otro modelo de coche que no era el que deseaba, pero llegó el que correspondia y en perfecto estado.

I absolutely LOVE this stroller. Super easy to maneuver and light compared to others.
