# BOOKTERIORS™

## OUR DESIGN PROCESS

Our interior design service begins with the basics regarding your design project:

- aesthetic

<https://bookteriors.com/process>

- color palette
- subject requirements (if any)
- book size
- total linear feet
- deadline
- budget

We gather this information and put together an initial proof and quote for your review. Most projects require several revisions to get the look just right. Upon approval and payment, we begin to assemble your book order. All books are carefully screened for condition issues as well as objectionable content including overtly political, sensual or religious themes.

We can ship UPS Ground, LTL, full truckload or international container. Our seasoned team works quickly to arrange shipping and make sure your books arrive before your deadline.

## GETTING STARTED

We look forward to helping you add the natural beauty of real books to your next design project.
