We love this car seat and stroller! It's so hard to pick a car seat and stroller when you're a new parent. I ordered this one shortly before my daughter was born in June. It was ridiculously easy to assemble. The stroller opens and closes with ease. The car seat easily clicks in to car seat base and stroller. We haven't had any issues and would strongly recommend

My husband set it up in less than 5 minutes! It's super stylish and durable. The front wheel does a 360 degree turns so easy to move about. Side wheels detach for easy storage. Love that the car seat comes with newborn gear so no need to purchase anything additional. Can't wait until our little one gets here to put it to use!

I love this stroller and car seat combo. The stroller is easy to fold and unfold making trips anywhere easier. Best part I don't have to wake up my baby when he falls asleep in the car just grab the whole car seat and put it in the stroller!

Barely no assembly required. I didn't put it together but my other half did and didn't get irritated doing so, so that says alot lol! It is a very smooth ride and looks expensive so it's a win win. I highly recommend it! Wish they had other colors versus black with bright colors or grey with black, but it's ok. The millennium white, aka grey and white is what I got and it's awesome! I have a girl and if I have a boy in the future I will be able to use this as well!! Worth the buy!

Product is as described, super easy to get it in and out of the car. Easy to assemble, the car seat is easy to take in and out. The stroller is easy to maneuver. Will recommend it to anyone.

Wow is all I can say. My daughter got some crazy over priced one for her shower. They are planning a visit with us so I thought we would make travel easier for them and have stuff here. This is a fine setup. It's not like the \$600 one she has now but it's just fine for us.

I absolutely love this. When baby is fussy I pop her in here and stroll her around the house (desperate parent obviously) and she usually relaxes. It's easy to pop in and out to carry the car seat. It's lightweight, and the carrying handle is great.

This stroller is amazing. Our baby prefers this one over the Evenflo stroller. The carseat does sit the baby more straight up, which our baby loves. The stroller is easy to maneuver and makes running easy. Its bulky when folded, but that is expected.

Best stroller car seat combo ever !!!! Easy to push -so effortless- gender neutral and so easy to store -load and unload in the car etc - car seat snaps right on and off -& includes base! Soooo nice!!! Love it

I purchased this product as a gift for my sister in law before she gave birth to her boy. I can say that this is a very good and strong quality as a product. We got both the stroller and the car seat and they look and feel more than the price of purchase. The only thing is that the car seat is not very versatile but I guess safety comes first.

It is nice. One thing that could use improvement was removing the seat from stroller. Was tricky to find such small latches hard to access. Over all good.

You cannot beat this price for a car seat or stroller. the base & stroller are my favorite because they are both so easy to use! So happy with this purchase!

We baby where and also use the stroller frequently the car seat clips into it so easy it's perfect for transferring straight from the car to the stroller when going to the store or on a jog
