### What's Involved?

AccuroLIVE will utilize a branded mobile app to stream a members data in real-time to a virtual environment that has been created specific to your club. Trainers will be able to instruct, motivate, and guide members to work harder, slow down or stay in a specific heart rate zone, all based on real-time data remotely, plus have access to backend reporting that will help guide trainers while leading their members to better results.

### Fully Branded For You!
