★★★★★ **Perfect size and weight**

I love these mugs for tea! They arrived in a Sweese box in perfect condition and have the Sweese stamp on the bottom of each mug. They are exactly the size I was looking for to replace a smaller set. While they are listed as 16 oz mugs, they actually hold 14 oz comfortably. They are filled right up to the rim and almost overflowing with 16oz. The colors are beautiful, although I would prefer that they replace the plain white one in the set with another color. The mugs are a good weight, too. Not cheap-feeling and thin like others I've used. The handle is thick and doesn't get hot. I would definitely buy these mugs again and highly recommend them!

These were packaged wonderfully. The colors are very vibrant. I love the size, I've shown you the comparison of a standard coffee cup. I needed one bigger...I still could go a tad bigger but this size is cool. Overall, these are beautiful and I'm ready for my coffee in the morning 😊

★★★★★ **The handles of these mugs don't get hot in the microwave!!**

We love these mugs!! They feel great to hold...sturdy, smooth, perfect lip & just plain comfortable! The various colors of blue are beautiful & calming! Best of all, these handles don't heat up where you can't hold the mug when heating in the microwave! This was the main factor to why I was looking for new mugs in the 1st place...our old

mugs got SO hot that you couldn't touch them, let alone use them. This is our 1st experience with Sweese & it will NOT be our last! Extremely happy with our purchase!!

★★★★★ **Beautiful high quality coffee mugs**

These are gorgeous! I got one of each color well packaged with each cup in bubble wrap, in an extra sturdy box. This will add so much to my enjoyment of my morning coffee. I like that these are tested for lead and heavy metals also. The ceramic cups I had been using started to cause contact dermatitis on my hands in the exact places I was holding the cups so you really have to be aware that the glazes on cups can cause you health problems. I expect that not to happen with these. And they are gorgeous.

These are great! I ordered a set for the holidays so we'd have matching mugs of generous size for house guests. These fit the bill. They truly do hold 16 oz, so plenty of room for the largest size brew from our Keurig along with the sugar and/or cream needed by some. They have a solid feel and set well on surfaces; the handles are generous so no problem gripping them. They are white and therefore fit in with our regular dishes as well as holiday dishes. Highly recommend.

★★★★★ **I should have ordered another set**

Simple, clean, functional. I am emptying my cabinet of my haphazard collection of random cups. This happy batch are just the ticket. I can fill with 12 oz of coffee and have plenty of room to spare for my "additives". Colors are fun and friendly. Also helps guests and me remember whose is which? great value. I like to pre-heat about 3 oz of milk in microwave before adding coffee. These are nice because the milk gets warm, but not the ceramic.

Only regret... I should have ordered two sets! (Ha!)

★★★★★ **Beautiful colors, perfect size and great durability**

Reviewed in the United States on October 15, 2019

Color: Cold Assorted Colors | [Verified Purchase](#)

I purchased these mugs to use with my morning coffee and afternoon tea. I selected these in particular for several reasons and am extremely happy with them. One of the reasons I chose these is because of the classic, simple lines, as well as the 16 oz. size. I was pleased with them with they arrived for this reason but, also, they just feel good in my hands. Now that the weather is gradually becoming colder, I know these will feel good just holding in both hands with hot cocoa and a cozy throw.

The second reason I selected these is due to the exquisite colors in the set. They originate with a white mug and gradually increase in progressively darker blue shades until finally the last mug is a gorgeous navy. They have an ombre effect which adds to the beauty of the colors.

And the last reason I chose these is because, although I have never tried the products before, I know the reputation

and quality associated with Sweese. I was not disappointed. And I love that, according to their description, these are lead free, non-toxic ceramic, chip resistant and stronger than stoneware. I'm done wasting my money on mugs only for them to chip and break. These meet all of my expectations.

Okay, it took me forever to find a mug that would suit me. My mugs and I spend a lot of time together, so I wanted something functional, something that felt good to hold. But, as a cranky cancer survivor, above all I want something that won't make me sick over time. According to Sweese, these have been tested and approved as safe from dangerous contaminants. Since they will be holding hot liquids for extended periods, that is important to me.

They shipped quickly, arrived in perfect shape and are now in rotation in my kitchen.
