Product description

Angeebin CAL 223 Rem Gauge Boresighter Red Dot

Specification:

Light Type: Class IIIA
Compatibility: Rifle, Handgun, Pistol
Material: Brass

Description:

- The unit cartridge fits 223REM caliber rifles
- It projects a straight red beam allowing precise optical adjustments to sight in your scopes & sights without firing and ammo
- Great for the range and ensuring your gun is still zeroed in after travel
- Easy to use: Simply place batteries in end cap-twist and end cap to turn on-and place in chamber
- Light wavelength: 650nm

How to install the battery:

Twist the end cap off to open the battery housing. Insert the three supplied batteries (LR41/AG3) into the battery, **negative end first**. Be certain that the batteries are all facing in the proper direction to ensure proper function of your Arrow Laser Sighting Tool. Turn the end cap clockwise until it is slightly snug. At this point you should visibly see the red dot. If you plan to store the sighting tool for a long period of time without use, remove the batteries to preserve the power.

Package include:

3 x 223 REM Bore Sighter
10 x AG3 Batteries
1 x Instructions
