Below the navigation bar, there are three product images: a desk lamp, a smartphone with a charging cable, and a long, thin light fixture. A product review is displayed, featuring a profile picture, a five-star rating, and the text: "Borthmiu Ultraviolet Germicidal UV Lamp Sterilization with Three-Step Timing Remote Control for Household Disinfection Living Room Bedroom Household Kitchen Hotel Virus Free". The review is dated September 20, 2020, and includes a detailed description of the product's use and effectiveness. A "Load more" button is located below the review. To the right, a "PRODUCTS" section lists three items: a 16" 3-Speed Oscillating Pedestal Fan, a Gooseneck Electric Kettle, and another Ultraviolet Germicidal UV Lamp. Each product listing includes a star rating and a price.

It works as well as the description. It comes without manual but not difficult to figure out how to use. First plugin and turn cable switch on. Second, keep room lighting and click optional buttons. I used B the 15 mins one. You will smell ozone very soon after turning it on. And be careful of not exposing yourself in UVC. I suggest opening windows or circulate AC fan to accelerate diluting ozone after using it, since ozone is harmful when it's too dense. In sum, it's actually pretty helpful for room disinfection. Recommend it.

Great light. Incredibly bright, but also has so many levels of adjustment. Of course if you lean it too far to one side it'll tip so just don't do that.

I've been using it for about a week or two now. It's super nice when I'm drawing or filming videos because I can switch the brightness or the different lighting colors. Its light, sturdy enough for what I need to do. I dont leave it on overnight though.
