Brand	Habor
Color	White
Material	Stainless Steel, Borosilicate Glass
Item Dimensions LxWxH	12.01 x 7.32 x 9.13 inches

About this item

- [High Quality & Healthier]The electric kettle combination of food grade glass and 304 stainless steel, the borosilicate glass having very low coefficients of thermal expansion, making them resistant to thermal shock. And stainless steel inner lid and bottom ensure the drinking safety
- [Safety Auto-off and Boil-dry Protection] Supreme safety is controlled by automatic shut-off mechanism, which is activated within 20 seconds after Harbor cordless kettle reaches a full boiling point. Never worry about overheating thanks to the boil-dry protection function
- [1500W Fast & Quiet Water Boiling] Utilizing the newest water circling heating technology, only takes 7 minutes to boil 1. 7L/ 8 cups water. Perfect match for Coffee, tea, oatmeal, pasta and much more, quicker than a microwave. Equipped with bright LED lights to indicate when the kettle is heating.
- [Wide Mouth and Easy to Clean] Mineral deposits, especially from hard water cause scaling which gradually slow down the process of Heating. A wide mouth means both easy cleaning and filling. To remove mineral deposits or rust stains from inside the kettle, combine two tablespoons of baking soda and lemon juice with water, boil For 30 minutes and rinse thoroughly.

- 304 Food-grade Stainless Steel Lid, Bottom

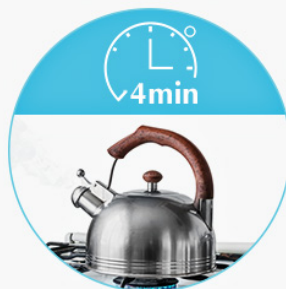

Habor Electric Kettle

Habor focuses on intelligent and convenient kitchen products & household products to level up your quality of life; Dedicated to ensuring a healthy life for your family.

VS

Stove

Microwave

Tips for the kettle usage:

1. Do not immerse the kettle, power cable, power plug or power base into water or other liquids for Electrical Safety;
2. Please clean the kettle before the first use;

3. Regular Cleaning is good for your kettle and drinking safety; Also clean the limescale can prolong lifespan of the glass kettle.

The best way of removing limescale:

Step 1: Fill 0.5L water and a drop of detergent into the kettle, wash the interior of the kettle thoroughly with a sponge and rinse it clean;

Step 2: Fill 1.5L water, some vinegar or citric acid into the kettle, boil the water and then discard it;

Step 3: Boil a pot of plain water once or twice and discard it to remove any remaining vinegar odor or taste.

Question: [Is it cordless](#)

Answer: It has a small base that plugs into the wall, the kettle itself sits down on this base to heat, but when you pick the kettle up it comes off the base, so the kettle itself is cordless.

Very happy!
Reviewed in the United States on January 4, 2020
Verified Purchase

I'm really happy with this purchase, especially for the price. It has a nice wide mouth for easy cleaning. I purchased the white version but in retrospect I think I would prefer the black. I tested this against my stainless steel stovetop Kettle using a high output gas burner and one liter of water which is about the right amount for my French press. The electric kettle brought the water to a rolling boil in 5 minutes, while the stove top kettle brought it to a rolling boil in 6.5 minutes. So, the electric kettle is definitely faster and frees up my stove top.

Steph

It Functions and Looks Nice but Isn't "Fast"

Reviewed in the United States on September 20, 2019

Verified Purchase

I've been on the lookout for a "fast kettle" - I saw a glass one at a shop a few years ago where the lady put in water cold, and it took about 2 mins to boil. I was fascinated! I should have written down the brand. Anyway, this ain't it. This kettle arrived in very weird packaging - no branding, the foam inside was somewhat dirty... But regardless it looks nice, functions nice, the LED blue light is nice. I put in 1.25L of cold water and it took 6:31 to boil fully. I thought that was a long time.... But its ok. I just wouldn't call it a "fast boil".

Complaint The Electric Kettle is not working.

Reviewed in the United States on March 31, 2020

Verified Purchase

I purchase this "Harbor" electric kettle on Feb, 2020. it was working fine until yesterday Mar 30, 2020 . The thermos shutdown auto switch not function any further. the unit was warranted for its quality, the defect is hazel and could danger or damage further, demand a replace working unit or refund the full amount of purchased price. "Amazon" should contact the manufacture or seller to reflect customer's compliant and need some action, wait for response from Amazon, Thanks.

I use this on a daily!!! I'm such a tea drinker and this is my favorite it's super fast and I love the little strainer it has built-in (so you can put tea straight in there or coffee)
In the mornings when I am in a hurry this heats up water SUPER fast! And the blue light it pretty to look at as well!

Stone

Great while it works

Reviewed in the United States on May 17, 2020

Verified Purchase

I purchased in Oct 2019 - checked my Amazon orders - and the heating element (I presume) died on 13 May. It just sat there with the blue light and and nothing else. Now I am a heavy user on kettles but only 8 months is not good.
