Publish with XR View

Publish your experience directly in XR View our own AR/VR viewer application.

Publish with Spark AR

Share your experience directly through Facebook/Instagram using Spark AR.

Publish with Web XR

Share your experience through the web with Web XR, a web-based AR/VR viewer.

Simple anchor

Use the simple anchor to position any objects into space. The most basic AR positioning system.

Image anchor

Use the image anchor to anchor any objects to a physical image or logo.

Surface anchor

Anchor to a horizontal or vertical surface.

Spatial anchor

Anchor to a real or virtual location, perfect for events.

App embed (soon)

Share your experience directly through your app.

Web embed (soon)

Share your experience directly through your website.

Add something extra. Minsar Studio gives you more.

Custom Requests

Please get in touch with a team member to explore custom requests. We are committed to finding the plan that works best for you.

Extra Views and Storage

Additional views and/or storage can be purchased and applied to any Minsar plan. A customer support representative will be able to discuss your options to find a plan that works best for you.

On-site training

One of our customer support representatives will provide your team with on-site training on how to make the most of Minsar for your company. These sessions range from 1-3 days depending on your unique needs.

Here's everything you should know.

How do I create an account?

How do I access my experiences?

Do I need an AR/VR headset to use Minsar Studio?

Can I use Minsar Studio on a computer?	+
Can I try Minsar for free?	+
What is XR view?	+
Can I use Minsar with my AR/VR headset?	+
How much does a Minsar license cost?	+
Is Minsar compatible with my smartphone?	+
How do I cancel my account?	+

In case you missed anything.

Secure Cloud Storage

Access your experiences easily from our secure cloud storage platform.

Interactions

Utilize dynamic triggers and actions to transform 3D elements, videos, text, sound, and images.

Drag and drop

Creation is at your fingertips with Minsar's drag-and-drop technology. Effortlessly create AR/VR experiences with content imported from your cloud service providers or local storage.

Unlimited projects creation

Create and edit as many AR/VR experiences as you want, then upgrade your plan to share your projects.

Automatic backups

Never lose your work again. Minsar Studio includes automatic backups, so your progress is always saved.

No-code technology

Easily create AR/VR experiences, regardless of your technical background. We aim to enhance your design capabilities by simplifying the creation process.
