

SPIRE

September 2020 Summit

Two years of relationship building in two days!

September 24th-25th, 2020
Hermosa Hotel - Catalina Island

This year more than ever we need to connect, safely. We are designing this Summit to ensure participants can physically distance; while maximizing their connection. Summits are designed for our members and partners to help them accelerate making deep interpersonal connections. The Summit compresses 2 years' worth of relationship development into two days! Spire has been running these Summits for close to 18 years and the results are amazing.

Everyone who attends Summit raves about the relationships they've been able to establish. In the two-day program, our focus is about your ability to meet and connect with the other attendees over numerous formats. We create programming that allows you to solve real-world business problems, have fun, challenge your brain and learn about fellow attendees which leads to building stronger relationships.
